Funcionalidade - Todas as peças foram desenhadas de forma a serem fácil e intuitivamente operadas por qualquer utilizador.

Ergonomia - Aplicando teoria, princípios, dados e métodos de ergonomia, conseguiu-se projetar um conjunto de elementos otimizados para o bem-estar humano e desempenho geral do sistema.

Performance - Todos os elementos elétricos e eletrónicos usados garantem uma grande performance de funcionamento e simultaneamente economia de energia, factor de grande importância na redução de custos e impacto ambiental.

Limpeza e higiene - O design da estrutura principal de todas as peças teve em grande consideração a limpeza e higiene, criando superfícies grandes e lisas, permitindo a fácil limpeza e desinfeção das peças, características fundamentais em elementos que podem ser manipulados diariamente por milhares de pessoas.

Segurança - Foi um dos grandes pontos de foco, o desenho ter especial cuidado com as formas não agressivas, algo que foi conseguido com os laterais ligeiramente boleados, mantendo as formas gerais retangulares.

Apoio a pessoas com mobilidade condicionada - Ao projetarmos esta série, tivemos sempre presente a aplicabilidade destas peças em casas de banho destinadas a pessoas com mobilidade reduzida, sendo possível a instalação das mesmas em diferentes alturas mantendo a facilidade de utilização dos equipamentos.

Instalação - Ao termos peças que partilham dimensões semelhantes também a forma de instalar e furações para fixar à parede foram mantidas semelhantes, simplificando a instalação e, simultaneamente, permitindo poupar tempo na aplicação.

Functionality - All parts are designed so that they can be easily and intuitively operated by any user.

Ergonomia - Applying theory, principles, data and ergonomics methods, it was possible to design a set of optimized elements for human well-being and overall system performance.

Performance - All electric and electronic elements used, guarantee an high operating performance and, simultaneously, energy saving. Great importance factor in reducing costs and environmental impact.

Cleanliness and hygiene - The main structure design of all parts had in serious consideration the cleanliness and hygiene, creating large, smooth surfaces, allowing an easy cleaning and disinfecting of the parts. Those are fundamental product characteristics because they can be manipulated by thousands of people every day.

Security - Was one of the major focus points, the design take special care with non-aggressive forms, something that has been achieved with the slightly fillets on the side, but maintaining the general rectangular forms.

Aids for disabled people - When projecting this series, we always had in mind the application in bathrooms for people with reduced mobility, being possible to install them at different heights while maintaining the ease of use of the equipment.

Installation - These products share similar dimensions, so the installation and drilling templates are also similar, reducing time and simplifying the application.

Funcionalidad - Todas las piezas están diseñadas de manera que sea fácil e intuitivamente operado por cualquier usuario.

Ergonomía - Aplicando teoría, principios, datos y métodos de ergonomía, hemos sido capaces de diseñar un conjunto de elementos optimizados para el bienestar humano y el rendimiento general del sistema.

Rendimiento - Todos los elementos eléctricos y electrónicos usados garantizar un rendimiento de alto funcionamiento y al mismo tiempo el ahorro de energía, factor muy importante en la reducción de costes y el impacto ambiental.

Limpeza e higiene - Limpieza e higiene - El diseño de la estructura principal de todas las partes debe muy en cuenta a la limpieza y la higiene, creando grandes superficies y lisas, lo que permite una fácil limpieza y desinfección de las partes, características fundamentales de los elementos que se pueden ser manipulados por miles de personas diariamente.

Seguridad - Fue uno de los principales puntos de enfoque, el diseño tenga especial cuidado con las formas no agresivas, algo que se ha conseguido con las laterales boleadas, manteniendo las formas rectangulares generales.

Apoio para personas de movilidad reducida - Al proyectar esta serie, siempre se ha pensado en la aplicabilidad de estas piezas en los baños para personas con movilidad reducida, por lo que es posible la instalación de la misma a diferentes alturas, manteniendo la facilidad de uso de los equipos.

Instalación - Cuando tenemos piezas que comparten dimensiones similares también la forma de instalar y agujeros para fijar a la pared se mantuvieron similares, lo que simplifica la instalación y al mismo tiempo, ahorrando tiempo en la aplicación.
